

Multi-agent case

```
graph TD; A[Multi-agent case] --> B[Modelling]; A --> C[Control];
```

A flowchart with a single root node at the top labeled 'Multi-agent case'. A horizontal line extends from the bottom of this node, with two vertical lines branching downwards from it to two separate child nodes. The left child node is labeled 'Modelling' and the right child node is labeled 'Control'. All nodes are rounded rectangles with black outlines and white backgrounds.
