

# Super Small Autonomous flying propeller thingy

*Abstract*—The abstract goes here.

*Index Terms*—IEEEtran, journal, L<sup>A</sup>T<sub>E</sub>X, paper, template.

## I. INTRODUCTION

**A**UTONOMUS aerial vehicles December 27, 2012

### A. The Issue

How make super small propeller things not smash into each other or other things.

1) *Subsubsection of the Issue*: How do we do dis?.

## II. CONCLUSION

It's bloody impossible to do this.

## APPENDIX A

DYNAMICS OR SOMETHING THAT'S HEAVY ON THE MATHS  
GOES HERE

Appendix one text goes here.

## APPENDIX B

SOMETHING ELSE BUT SIMILAR HERE, MATLAB CODE?  
Appendix two text goes here.

## ACKNOWLEDGMENT

Praising of Christos goes here! The authors would like to thank...
